

SAFEGUARDING

At Sparkles and Millies

KEEPING SAFE

Children are kept safe in a variety of ways at Sparkles/Millies

Risk assessments of the room, outdoor area and activities are regularly carried out.

Children are encouraged to discuss safety of play areas, of how to stay safe themselves (eg by holding parents hand crossing the road) and what risks are reasonable to take (eg. can I jump that high?)

All staff take safeguarding and child protection training and can take appropriate action when children are considered to be at risk of harm.

KEEPING ACTIVE

Children are not developed enough nor are they meant to stay still for too long. So we balance our activities to keep children moving. We use our outdoors areas daily giving children a chance to be literally active learners. Totstars is our icing on the cake, where we have a company to have fun physical activity helping children to stay healthy and enjoy exercise.

KEEPING HEALTHY

Healthy snacks are offered daily to the children. Parents are encouraged to give healthy choices in children's packed lunches.

We are in touch with our local children's Centre who offer dental checks, help with speech and language development and much much more!

WORKING WITH PARENTS

Regular meetings with parents help us get the best for our children as we share information and Ideas to help children learn and stay healthy. Parents are offered the chance to have paediatric (non certificated but free) first aid training each year from a qualified trainer.
